The Mission

To contribute to improvements in the health of populations in low- to middle-income countries by building Public Health capacity via e-learning at very low cost

Student testimonials

"Peoples Uni has a very good e learning structure with a number of incredibly helpful materials and tutors that are ready to teach and help students through their path and thirst for knowledge."

"Peoples Uni is a new breathing of life for students from developing countries who can now enrol and learn about public health and contribute to the country needs where public health improvement is urgent."

"The knowledge of critical thinking and writing which has been learnt from the course has started reaping accolades in my organisation that I work in."
